COMPUTER RECOMMENDATION FOR AGROCAD

- Processor: Intel Core **i7** (generation above 10) with model end name being K, KF, F, H, HX or HE. (Examples: i7-**13**650**HX** or i7-**12**700**K**)

- **RAM**: **32Gb** or more recommended (16Gb **minimum**).

- **Video Card**: It is important that it is a dedicated (non-onboard) card and is Nvidia branded as compatibility with Autodesk products is much higher than AMD video cards. Recommended to be **Nvidia Quadro** or **Nvidia Geforce** with 4Gb RAM (2Gb minimum).

- Primary Disk: Highly recommended to be a Solid State Drive **(SSD)** with at least **512GB**. This gives a huge difference in machine speed / performance.
Note: Both the operating system and softwares must be installed on this disk for real performance gain.

- Secondary Disk (optional): If additional disk space is needed to record large files, projects and user documents, we recommend that the machine have an additional disk (normal hard drive, does not need to be SSD) of at least 1TB.

- **Operating System**: Microsoft **Windows 11/10 Pro** or Home. Note: Must be 64-bit version.

- **Prerequisite**: Software **Civil 3D**, installed (mandatory in **english**), authorized and working correctly.
